

Partner Relationship Management

“The business partner portal is a very attractive feature for our brokers. They love the fact that they can simply log in and access each client’s complete history, make changes, track the services we have provided — it helps them build their own businesses and relationships with clients.”

Kevin J. Timmerman, President
Steele Capital Management

Collaborate and Sell. Maximize Partner Success.

Exchanging information about customers, sales opportunities and marketing activities with a network of resellers can be complex and time-consuming. Help your employees and partners handle leads faster, collaborate more effectively on deals, and improve sales forecasting with Maximizer CRM Partner Relationship Management — through the web!

Streamline lead distribution, forecasting and targeted marketing

- Assign leads to partners or resellers, complete with automatic email alerts to retrieve leads through the web. Viewing contact information, profile and background knowledge on leads in real-time, will help them make more effective follow-up calls.
- Improve the accuracy of your forecasting and sales pipeline reports. Allow resellers to view and update their sales opportunities, and add new opportunities, including probability of close.
- Get customer feedback through partners and make more informed decisions.
- Review opportunities by account manager or partner to motivate partner sales.

Real-time Lead Distribution:
Assign leads and opportunities to partners in real-time through the web and receive updates back.

Empower partners with online access to critical answers and solutions

- Give your partners the answers they need — before they need them. Publish answers to FAQs, procedures, and notes about customer service solutions in the Web Knowledge Base.
- Give partners access to a calendar of partner-related activities including marketing campaign dates, training programs and events.
